

**Minneapolis MN – April 30th, 2015** – Evidentia Health, Inc. announced today a partnership with USARAD Holdings Inc., a leading telemedicine and teleradiology services provider. The partnership allows USARAD to offer the Evidentia Enhanced Report to their domestic and international customers for radiology, pathology and other specialties enabling patients and referring physicians access to patient education, evidence-based research and novel communication tools embedded directly in personalized reports.

Dr. Jeremy Friese, Founder and Chairman of Evidentia Health Inc., said “Our team is thrilled to apply our expertise and service for the patients and referring physicians serviced by USARAD. The Evidentia Enhanced Reporting platform will wonderfully augment their ability to engage and communicate effectively with their customers who benefit from USARad’s cost-effective and timely specialized second opinions to patients.” Dr. Friese went on to describe the projects Evidentia has implemented within Evidentia’s founding investors institutions, the Mayo Clinic and the University of Minnesota, “Our work at these two top tier institutions was instrumental in our ability to build and integrate our technology that truly improves patient and physician engagement and helps radiologists communicate with their referring providers and patients in novel ways.”

“Our broad cross-section of patients and referring physicians from all across the United States, and especially the rapidly expanding international population of patients and physicians, will greatly benefit from the enhanced content available in the Evidentia Reports” explained Dr. Michael Yuz, MD, MBA, CEO and Founder of USARAD. “As the world continues to move towards consumerization, globalization, and ubiquity of healthcare, it is our industry’s mandate to provide more than just a typed textual report. This partnership brings to the world the information each patient hopes for, to understand the diagnosis and treatment plans they receive from their doctor or healthcare provider,” he added.

###

**About Evidentia Health:**

Evidentia Health Inc. empowers radiologists and pathologists to better engage and communicate with their referring providers and patients. Launched in 2012, Evidentia co-developed and implemented their platform with their founding institutions, Mayo Clinic and University of Minnesota Physicians. Evidentia

Enhanced Reporting platform transforms traditional text-based radiology and pathology reports into personalized reports with embedded images, specialist contact information, patient education, best evidence and critical result notification in a clean and readable format. Evidentia integrates with electronic health record systems and physician workflows by enhancing each report with historical context and communication tools to improve understanding and decision-making, facilitating collaboration between providers and diagnosticians.
